3D WEBSOFT INC. FOUNDATION

SCHOOL FUTURE TECH PROGRAMM

Faculty Name :

Course Duration : 5 Months (150 Days)

Classes : Offline & Online

Daily Teaching : 3 Hours

Total Hours : 300 Hours

3DWEBSOFT FOUNDATION

LEVEL 1 – JUNIOR INNOVATORS (5th–6th Standard)

MODULE 1 – COMPUTER BASICS (Classes 1–20)

Class 1 — Introduction to Computers | Importance of Computers (Complete Notes)

Complete Theory & Practical Notes

Topic:- Welcome to Future Tech Program

Learning Objectives:-

At the end of this class, students will be able to:

- Understand what the Future Tech Program is.
- Explain what a computer is.
- Identify where computers are used in daily life.
- Recognize different types of computers.
- Understand why computers are important.
- Complete a fun practical activity.

3DWIKISOFT FOUNDATION

Session Plan

Time	Topic
20 Minutes	Welcome & Ice Breaking
40 Minutes	Introduction to Future Tech Program
45 Minutes	What is a Computer?
15 Minutes	Break
45 Minutes	Importance of Computers
45 Minutes	Practical Activity & Quiz
10 Minutes	Homework

3DWEBSOFT FOUNDATION

Part 1: Welcome to Future Tech Program:---

Teacher Introduction:-

Welcome everyone!

Today begins your exciting journey into the world of ***Computers, Artificial Intelligence (AI), Scratch Programming, Cyber Safety, and Mini AI Projects.***

During this course, you will become a ***Junior Innovator*** by learning technology through fun activities and creative projects.

What You Will Learn

- Computer Basics
- Artificial Intelligence (AI)
- Scratch Programming
- Internet Safety
- Mini AI Projects
- Teamwork
- Creativity
- Problem Solving

Fun Icebreaker Activity

"Find Technology Around You"

Ask students:

- Who has used a mobile phone?
- Who has seen a laptop?
- Who has used YouTube?
- Who has played a computer game?
- Who has used Google?

Students raise their hands and share their experiences.

3DWEBSOFT FOUNDATION

Part 2: What is a Computer?

Definition:-

A ***computer*** is an electronic machine that accepts data, processes it, stores it, and produces useful information.

Simple Definition for Kids

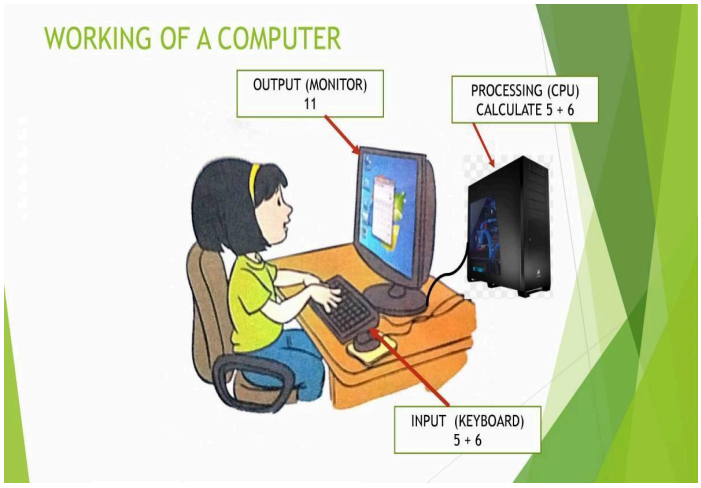

> **A computer is a smart electronic machine that helps us do work quickly and accurately.**

How Does a Computer Work?

Input
↓
Processing
↓
Storage
↓
Output

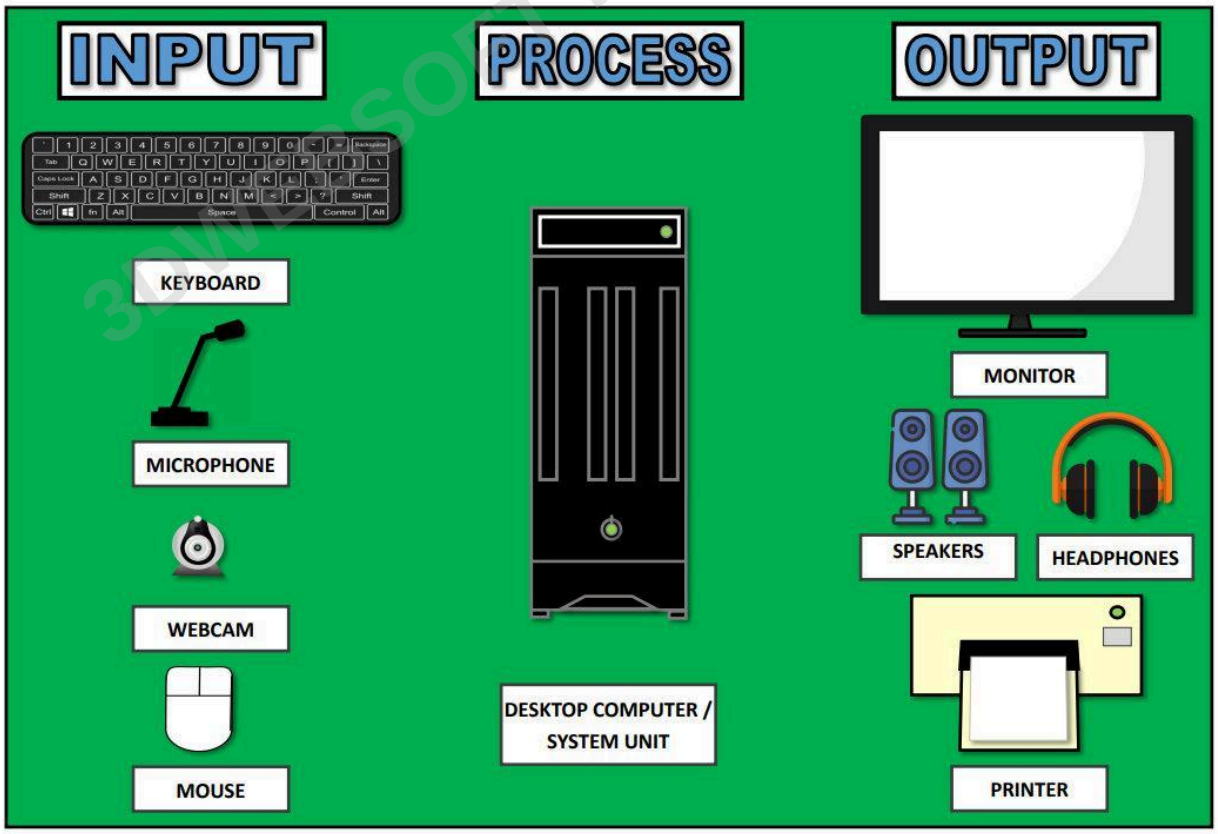

Example:-

Keyboard → CPU → Memory → Monitor

3DWISSOFT FOUNDATION

Main Parts of a Computer

Part	Function
Monitor	Displays information
CPU	The brain of the computer
Keyboard	Used for typing
Mouse	Used for pointing and clicking
Speakers	Produce sound
Printer	Prints documents

3DWEBSOFT FOUNDATION

Features of a Computer

Computers are:-

- Fast
- Accurate
- Smart
- Reliable
- Store lots of information
- Never get tired

Part 3: Importance of Computers

Computers make life easier.

They help us in many places.

At School

- Online learning
- Smart classrooms
- Homework
- Drawing

- Educational games

At Home

- Watching videos
- Playing games
- Shopping
- Paying bills

In Hospitals

- Patient records
- X-rays
- Scanning
- Medicines

In Banks

- Money transfer
- ATM
- Online banking

In Airports

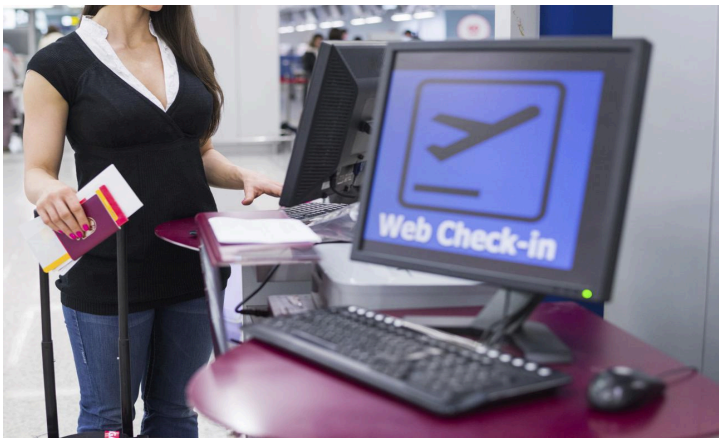

- Ticket booking
- Flight schedules
- Security

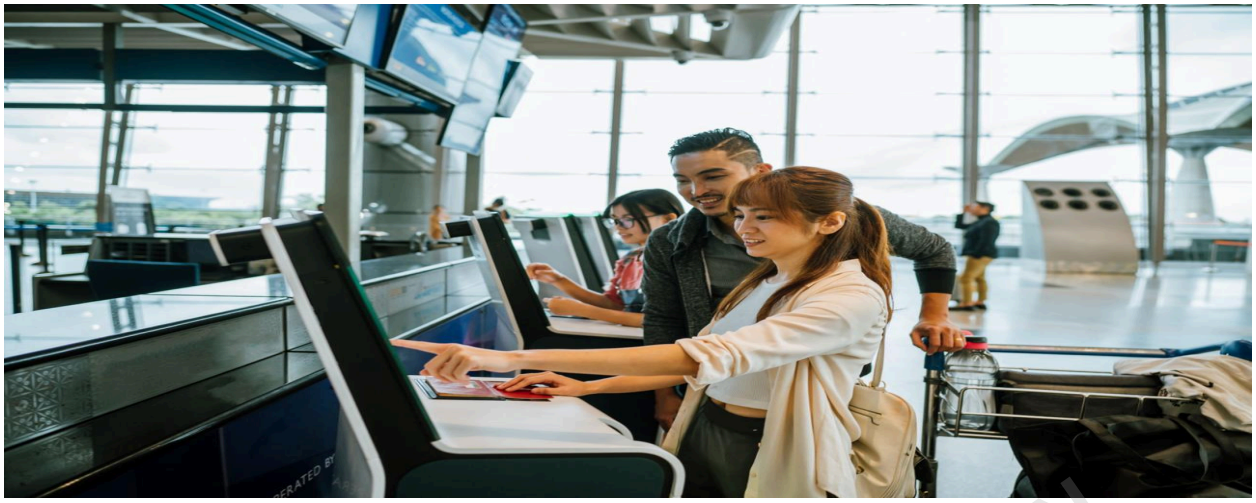

In Offices

- Reports
- Meetings
- Emails
- Data storage

3DWEBSOFT FOUNDATION

Activity 1 – Identify Computers Around You

Students draw or list places where they see computers.

Examples:-

- School
- Home
- Hospital
- Bank
- Railway Station
- Airport
- Shopping Mall
- Office

SDWEBSOFT FOUNDATION

Activity 2 – Draw a Computer

Students draw:

- Monitor
- CPU
- Keyboard
- Mouse

Color the drawing.

Practical Activity (Hands-on)

Activity: Meet Your Computer

Students will:-

1. Switch on the computer.
2. Observe the monitor.
3. Identify the CPU.
4. Find the keyboard.
5. Hold and move the mouse.
6. Click the left and right mouse buttons.
7. Open and close a simple application (e.g., Paint).

Learning Outcome: Students become familiar with basic computer hardware and simple interaction.

3DWEBSOFT FOUNDATION

Beginner Coding Activity (Scratch)

Even in the first class, students can enjoy a simple coding experience using Scratch.

Objective

Display a welcome message.

Steps

1. Open Scratch.
2. Keep the default Cat sprite.
3. Drag the ***When Green Flag Clicked*** block.
4. Add a ***Say*** block.
5. Type:

Welcome to the Future Tech Program!

6. Click the Green Flag.

Block Logic

When Green Flag Clicked

↓

Say "Welcome to the Future Tech Program!" for 3 seconds

Extension Challenge: Change the message to:

Hello! I am a Junior Innovator.

Classroom Quiz:-

Fill in the Blanks

1. A computer is an _____ machine.
2. CPU is the _____ of the computer.
3. We type using a _____.
4. We see pictures on the _____.
5. A mouse is an _____ device.

Answers:

1. electronic
2. brain
3. keyboard
4. monitor
5. input

3DWEBSOFT FOUNDATION

Think and Answer

1. What is a computer?
2. Name any four parts of a computer.
3. Where do you see computers?
4. Why are computers important?
5. Which part is called the brain of the computer?

Group Activity:-

Each group prepares a chart titled:

"Computers Around Us"

Draw or paste pictures showing computers used in:

- School
- Home
- Hospital
- Bank
- Airport

Then present the chart to the class.

Homework:-

1. Draw a computer and label its parts.
2. Write five places where computers are used.
3. Ask your parents where they use computers at work or home and write two sentences about it.

3DWEBSOFT FOUNDATION

Learning Outcome

After completing this class, students will:

- Explain what a computer is.
- Identify the main parts of a computer.
- Describe where computers are used.
- Operate a computer at a beginner level.
- Create their first simple Scratch program.
- Build confidence and curiosity about technology.
