3DWEBSOFT INC. FOUNDATION

SCHOOL FUTURE TECH PROGRAMM

Faculty Name :

Course Duration	: 5 Months (150 Days)
Classes	: Offline & Online
Daily Teaching	: 3 Hours
Total Hours	: 300 Hours

3DWEBSOFT FOUNDATION

LEVEL 1 – JUNIOR INNOVATORS (5th–6th Standard)

MODULE 1 – COMPUTER BASICS (Classes 1–20)

Class 18 — Saving Files in Microsoft Word

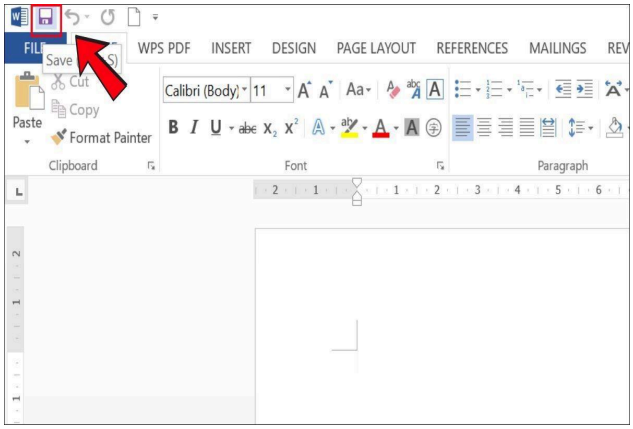

(Complete Notes)

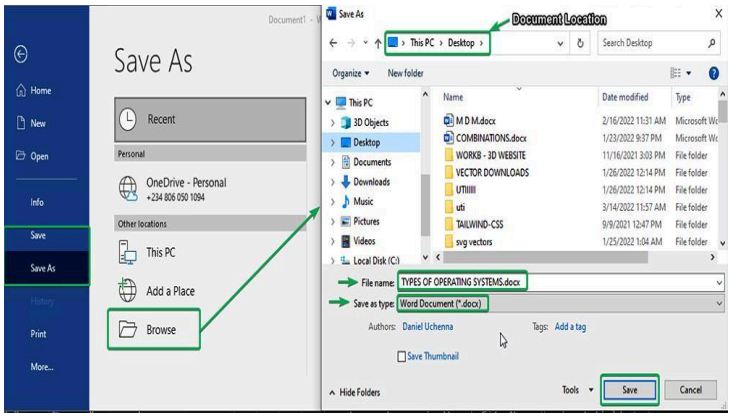

Complete Theory & Practical Notes

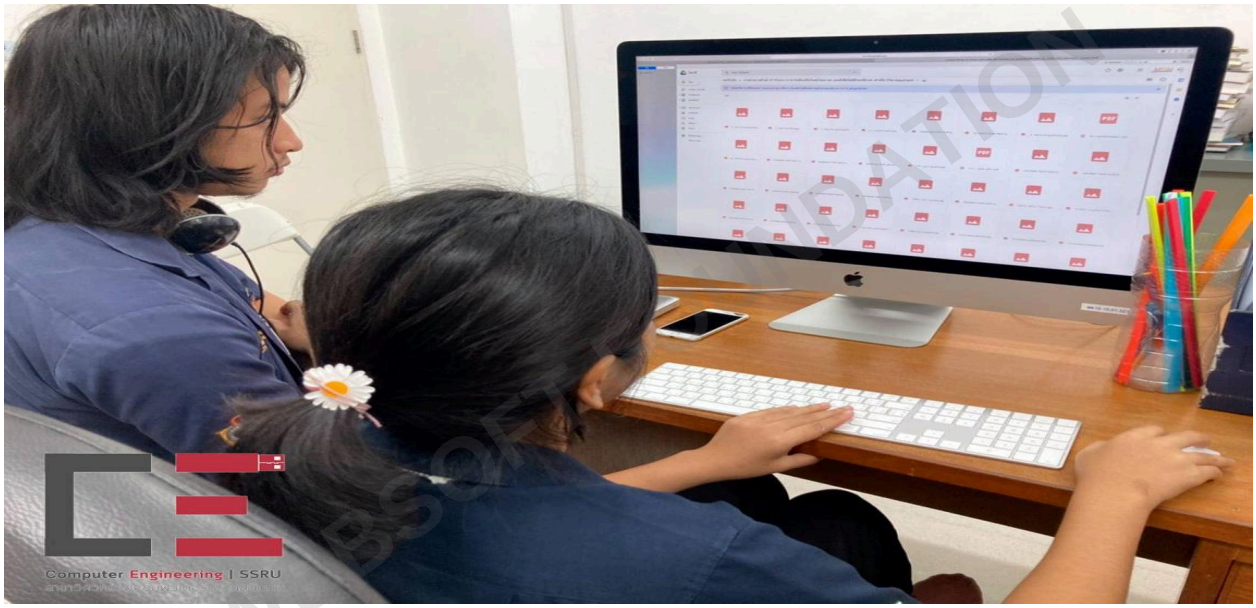

Learning Objectives

By the end of this class, students will be able to:-

- Understand what a file is.
- Understand why saving files is important.
- Save a Microsoft Word document.
- Use **Save** and **Save As** correctly.
- Open an existing file and make changes.
- Organize files into folders.
- Practice logical thinking with a beginner Scratch coding activity.

Session Plan

Time	Topic
20 Minutes	Introduction to Files
40 Minutes	Saving Files
15 Minutes	Break
45 Minutes	Practical Activities
40 Minutes	Scratch Coding Activity
20 Minutes	Quiz & Homework

Introduction

Whenever we create a document, picture, or presentation, we must **save** it. Saving keeps our work safe so we can open it later.

Simple Definition

> **A file is a collection of information stored on a computer.**

What is Saving?

> **Saving means storing your work permanently on a computer so that it can be opened again later.**

3DWEBSOFT FOUNDATION

Why Should We Save Files?

Saving files helps us:-

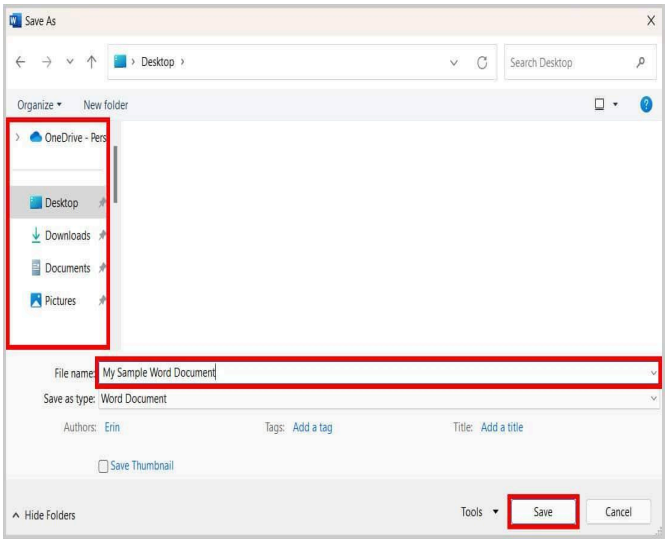

- Keep our work safe.
- Open documents later.
- Continue editing.
- Print documents.
- Share files with teachers and friends.

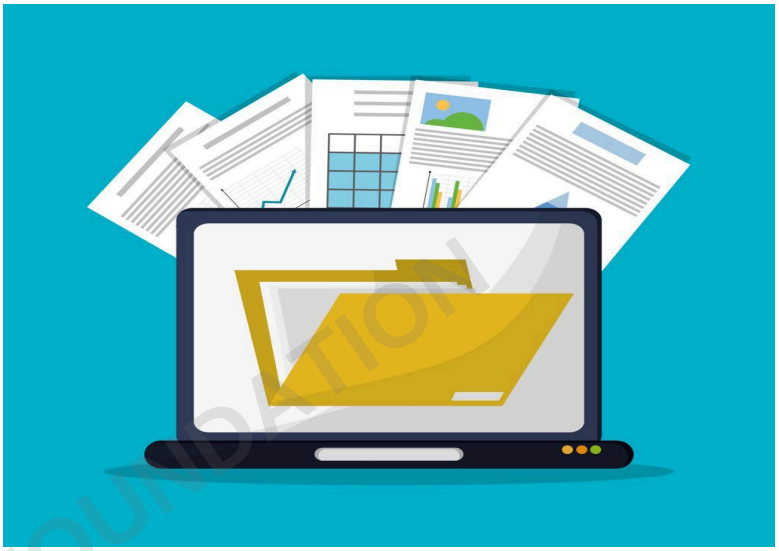

Types of Files

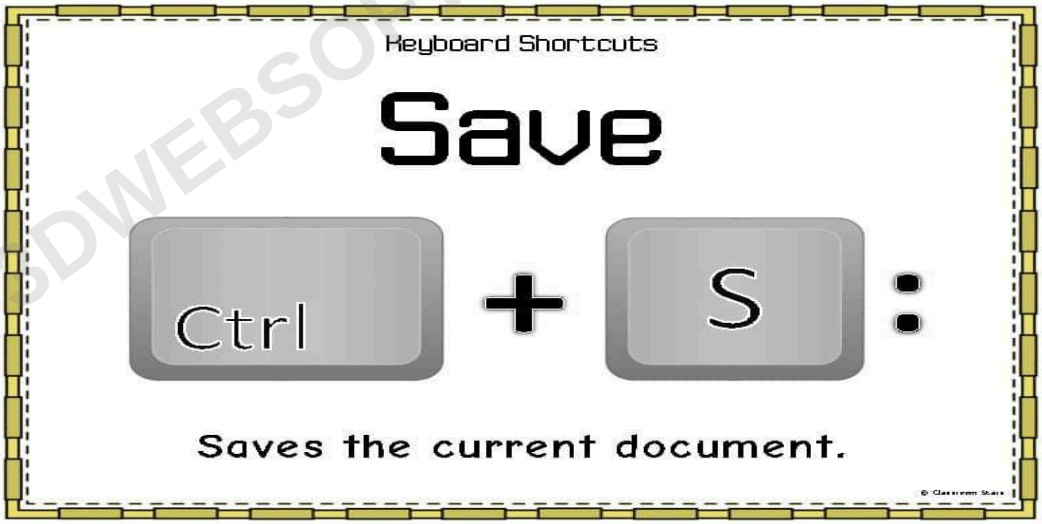

File Type	*Example*
Word Document	Homework.docx
Picture	Drawing.png
PDF	Story.pdf
Presentation	Project.pptx
Spreadsheet	Marks.xlsx

Save vs Save As

Save	Save As
Updates the existing file	Creates a new copy with a different name or location
Shortcut: **Ctrl + S**	Shortcut: **F12** (or File → Save As in many versions of Word)

SDWEBSOFT FOUNDATION

How to Save a File

Method 1 – Save Button

1. Click **File**.

2. Click **Save**.
3. Choose a folder.
4. Type the file name.
5. Click **Save**.

Method 2 – Keyboard Shortcut

Press:-

Ctrl + S

This quickly saves your document.

Choosing a Good File Name

Good examples:-

- MyHomework.docx
- MyStory.docx
- MyProject.docx
- MySchool.docx

Avoid names like:-

- New Document
- File1
- Test123

Choose names that clearly describe the document.

3DWEBSOFT FOUNDATION

Practical Activity 1 – Save Your First Document

Open Microsoft Word.

Type:-

MY COMPUTER

A computer helps us learn many new things.
I enjoy using Microsoft Word.
I like learning technology.

Save the document as:

MyComputer.docx

Practical Activity 2 – Save As

Open **MyComputer.docx**

Click:-

File → Save As

Save another copy as:

MyComputerProject.docx

Now you have **two separate files**.

Practical Activity 3 – Create a Folder

Students will:-

1. Open **Documents**.
2. Right-click and choose **New → Folder**.
3. Name the folder:

Computer Class

4. Save all class documents inside this folder.

3DWEBSOFT FOUNDATION

Practical Activity 4 – Open and Edit a File

Open:-

MyComputer.docx

Add:-

Computers help us study, draw, play educational games, and communicate with others.

Press:

Ctrl + S

Close the document.

Open it again and check whether the new sentence was saved.

Practical Activity 5 – Save a Paint Drawing

1. Open **MS Paint**.
2. Draw a flower or house.
3. Click **File** → **Save As**.
4. Save the drawing as:

MyDrawing.png

Beginner Coding Activity (Scratch)

Objective

Create a project that reminds users to save their work.

Steps

1. Open Scratch.
2. Keep the Cat sprite.
3. Add the following blocks:

When Green Flag Clicked
Say "Welcome!" for 2 seconds
Wait 1 second
Say "Don't forget to save your work!" for 3 seconds
Wait 1 second
Say "Press Ctrl + S often." for 3 seconds

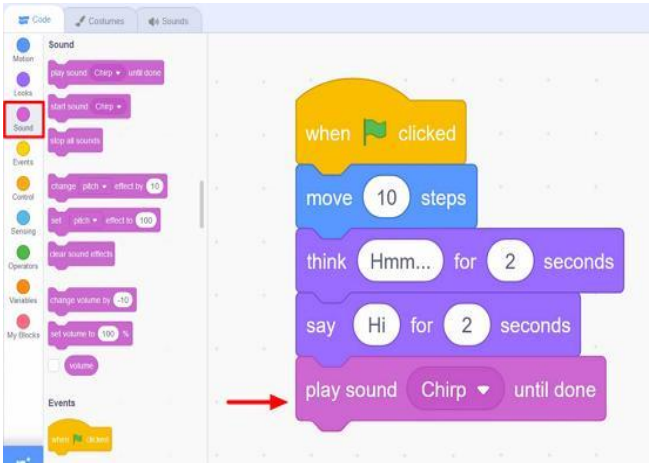

Challenge

Add a sound after the final message.

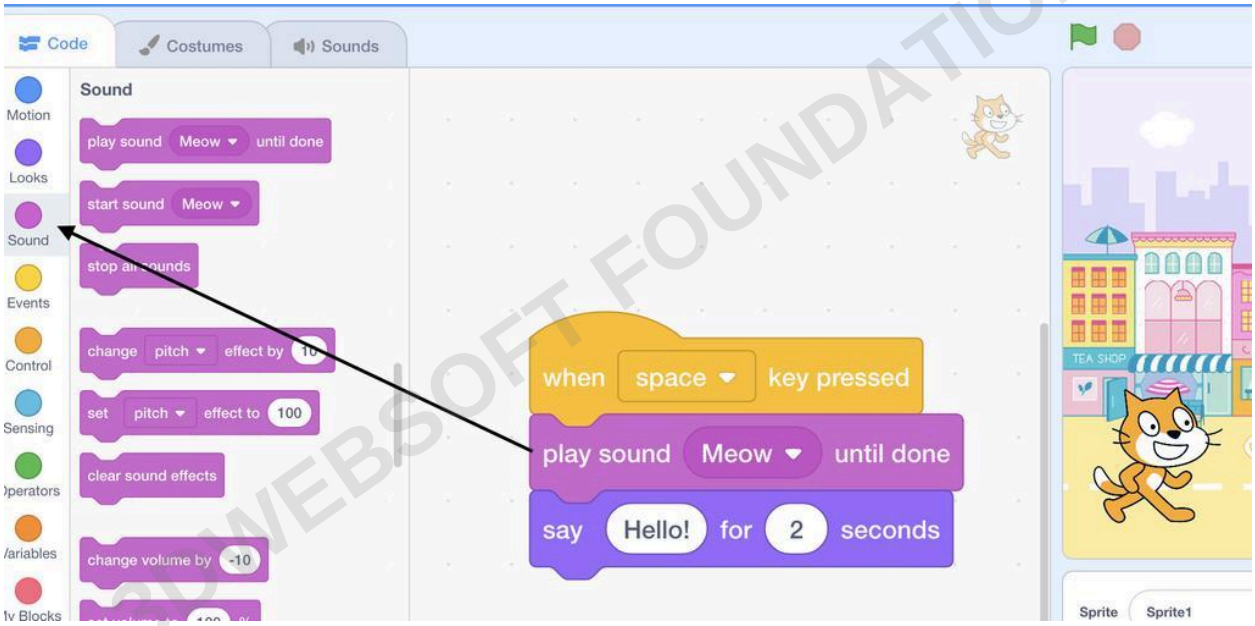

Example:-

Play sound "Pop"

SDWEBSOFT FOUNDATION

Mini Project – My Personal Information

Create a Word document.

Title

MY PERSONAL INFORMATION

Include:-

- Name
- Class
- School
- Favorite Subject
- Favorite Game
- Favorite Color

Format the title using:

- Bold
- Blue Color
- Font Size 22
- Center Alignment

Save the file as:

MyProfile.docx

Store it inside the **Computer Class** folder.

Classroom Activity – File Organization Challenge

The teacher provides three documents.

Students must:-

- Create a folder called **Junior Innovators**.
- Save each document with a meaningful name.
- Open one file and make a small edit.
- Save the changes using **Ctrl + S**.

Group Activity

Each group creates a folder named:-

Group Project

Inside the folder, save:

- One Word document
- One Paint drawing

Discuss why keeping files in folders makes them easier to find.

3DWEBSOFT FOUNDATION

Quiz:-

Fill in the Blanks

1. Saving a file keeps our _____ safe.
2. The keyboard shortcut for Save is _____.
3. _____ creates another copy of a file.
4. A Word document usually ends with _____.
5. Files are often organized inside a _____.

Answers

1. Work
2. Ctrl + S
3. Save As
4. .docx
5. Folder

Think and Answer

1. What is a file?
2. Why should we save our work?
3. What is the difference between **Save** and **Save As**?
4. What keyboard shortcut is used to save a file?
5. Why is it helpful to keep files inside folders?

3DWEBSOFT FOUNDATION

Homework

1. Create a folder named **My Computer Work**.
2. Create a Word document titled **My Daily Routine**.
3. Write **8–10 sentences** about your daily routine.
4. Save the document as **DailyRoutine.docx** inside your folder.
5. Open the file again, add one more sentence, and save it using **Ctrl + S**.

Learning Outcomes

After completing this lesson, students will be able to:-

- Explain what a file is and why saving is important.
- Save and reopen Microsoft Word documents.
- Use **Save** and **Save As** correctly.
- Organize files into folders with meaningful names.
- Apply keyboard shortcuts such as **Ctrl + S**.
- Build logical thinking through a simple Scratch reminder project.
- Develop good digital file management habits for school and personal work.
