3D WEBSOFT INC. FOUNDATION

SCHOOL FUTURE TECH PROGRAMM

Faculty Name :

Course Duration	: 5 Months (150 Days)
Classes	: Offline & Online
Daily Teaching	: 3 Hours
Total Hours	: 300 Hours

3DWEBSOFT FOUNDATION

LEVEL 1 – JUNIOR INNOVATORS (5th–6th Standard)

MODULE 1 – COMPUTER BASICS (Classes 1–20)

Class 3 — Types of Computers (Complete Notes)

Complete Theory & Practical Notes

Learning Objectives

After completing this lesson, students will be able to:

- Identify different types of computers.
- Explain the uses of Desktop, Laptop, Tablet, Mobile, and Super Computer.
- Compare different computer types.
- Create a computer identification chart.
- Build a simple Scratch project about computer types.

Types of Computers

3DWEBSOFT FOUNDATION

Computers come in many sizes and are designed for different purposes. Some are used at home, some in schools, some in hospitals, and some help scientists solve very difficult problems.

The five common types of computers are:

1. Desktop Computer
2. Laptop
3. Tablet
4. Mobile (Smartphone)
5. Super Computer

1. Desktop Computer

What is a Desktop Computer?

A Desktop Computer is a personal computer that is placed on a desk. It usually has separate parts such as a monitor, keyboard, mouse, CPU, and speakers.

Features

- Large screen
- Powerful performance
- Uses electricity continuously
- Easy to upgrade
- Best for office and school work

Uses

- School computer labs
- Offices
- Graphic designing
- Programming
- Gaming

Advantages

Fast

Large storage

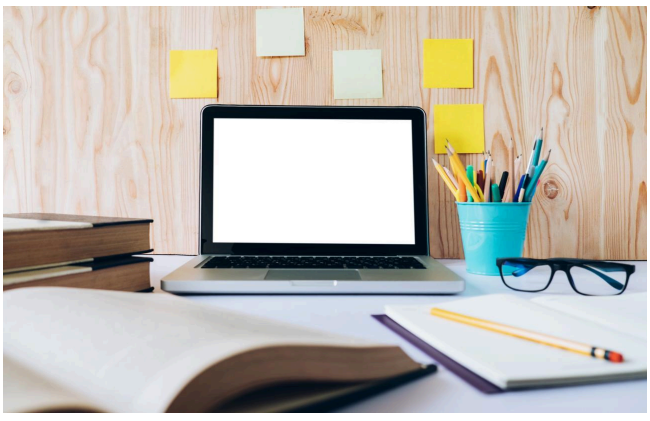

Comfortable for long work

Disadvantages

Cannot be carried easily

SDWEBSOFT FOUNDATION

2. Laptop

What is a Laptop?

A Laptop is a portable computer that can be carried anywhere. It has a built-in keyboard, screen, battery, speakers, webcam, and touchpad.

Features

- Lightweight
- Rechargeable battery
- Portable
- Wi-Fi enabled

Uses

- Online classes
- Office work
- Coding
- Watching videos
- Presentations

Advantages

Easy to carry

Battery backup

3DWEBSOFT FOUNDATION

Disadvantages

More expensive than desktops

3. Tablet

3D WEB SOFT FOUNDATION

What is a Tablet?

A Tablet is a touchscreen computer that is larger than a mobile phone but smaller than a laptop.

Features

- Touchscreen

- Portable
- Lightweight
- Rechargeable

Uses

- Reading eBooks
- Drawing
- Watching videos
- Online learning

Advantages

Easy to use

Lightweight

Disadvantages

Limited software compared to computers

3DWEBSOFT FOUNDATION

4. Mobile (Smartphone)

3DWEBSOFT FOUNDATION

What is a Smartphone?

A Smartphone is a small handheld computer used for communication and many daily activities.

Features

- Touchscreen
- Camera
- Internet
- GPS
- Mobile Apps

Uses

- Calling
- Messaging
- Gaming
- Online classes
- Photography
- Internet browsing

Advantages

Fits in your pocket

Very easy to carry

Disadvantages

Small screen

5. Super Computer

3SWEB SOFT FOUNDATION

What is a Super Computer?

A Super Computer is the fastest and most powerful type of computer. It performs millions or billions of calculations every second.

Features

- Extremely fast
- Very large
- Expensive
- Uses many processors
- Requires cooling systems

Uses

- Weather forecasting
- Space research
- Artificial Intelligence
- Medical research
- Scientific simulations

Advantages

Very powerful

Disadvantages

Very expensive

Requires special rooms

3DWEBSOFT FOUNDATION

Comparison of Computer Types

Type	Portable	Touchscreen	Main Use
Desktop	No	No	Office & School
Laptop	Yes	Some Models	Study & Work
Tablet	Yes	Yes	Learning & Reading
Mobile	Yes	Yes	Communication
Super Computer	No	No	Scientific Research

Portability Comparison

Computer Portability

Comparison of how portable different computer types are (illustrative score out of 10).

036912DesktopLaptopTabletMobileSuper Computer

Classroom Activity :-

Identify the Computer

The teacher shows pictures of different computers.

Students answer:

- What type of computer is it?
- Is it portable?
- Where is it used?
- Does it have a touchscreen?

3DWEBSOFT FOUNDATION

Activity: Draw Your Favorite Computer

Materials:

- A4 Paper
- Pencil
- Colors

Students draw their favorite computer and write:

- Name
- Uses
- Two advantages

Practical Coding Activity (Scratch)

Project Title

"Guess the Computer" Interactive Quiz

Objective

Students create a Scratch project where clicking on a computer displays its name and use.

Step 1

Open Scratch and create a new project.

Delete the default cat sprite.

Step 2

Add Sprites

- Desktop
- Laptop
- Tablet
- Mobile
- Super Computer

Add a classroom or technology-themed background.

3DWEBSOFT FOUNDATION

Step 3

Programming Logic

Green Flag

when green flag clicked
say "Welcome! Click on a computer to learn about it." for 3 seconds

Desktop Sprite

when this sprite clicked
say "I am a Desktop Computer. I am used to schools and offices." for 4 seconds

Laptop Sprite

when this sprite clicked
say "I am a Laptop. You can carry me anywhere." for 4 seconds

Tablet Sprite

when this sprite clicked
say "I am a Tablet. I have a touchscreen." for 4 seconds

Mobile Sprite

when this sprite clicked
say "I am a Smartphone. I fit inside your pocket." for 4 seconds

Super Computer Sprite

when this sprite clicked
say "I am a Super Computer. I solve very difficult scientific problems." for 5 seconds

©DWEBSOFT FOUNDATION

Advanced Scratch Challenge

Create a quiz with score keeping.

Example:

ask "Which computer is the fastest?" and wait

If answer is:

Super Computer

Then

change Score by 1
say "Excellent!" for 2 seconds

Else

say "Try Again!" for 2 seconds

Add more questions, such as:

- Which computer fits in your pocket?
- Which computer is best for offices?
- Which computer is best for weather forecasting?
- Which device has a touchscreen?

AI Connection

Discuss with students:

- Which devices can run AI assistants?
- Have you used Google Assistant or Siri?
- Can AI work on mobile phones and laptops?
- Why do scientists use supercomputers for AI research?

3DWEBSOFT FOUNDATION

Fun Quiz:-

1. Which computer can you keep on a desk?
    - A) Tablet
    - ***B) Desktop***
    - C) Mobile
2. Which computer is best for travel?
    - A) Desktop
    - ***B) Laptop***
    - C) Super Computer
3. Which computer is the fastest?
    - A) Laptop
    - B) Mobile
    - ***C) Super Computer***
4. Which device fits in your pocket?
    - A) Desktop
    - B) Tablet
    - ***C) Mobile***
5. Which device is mainly controlled by touching the screen?
    - A) Desktop
    - ***B) Tablet***
    - C) Super Computer

Homework

1. Draw all five types of computers.
2. Write ***two uses*** of each computer.
3. Create a table comparing Desktop, Laptop, Tablet, Mobile, and Super Computer.
4. Improve your Scratch project by adding sounds, animations, or a scoring system.

Learning Outcomes

By the end of this class, students will be able to:-

- Identify five major types of computers.
- Explain their features, advantages, and uses.
- Compare different computer types.
- Create an interactive Scratch project about computers.
- Understand which computer is best for different real-world tasks.
