3D WEBSOFT INC. FOUNDATION

FUTURE TECH SCHOOL PROGRAM

Faculty Name :

Course Duration : 5 Months

Classes : Offline & Online

Daily Teaching : 2 Hours

Total Classes : 100

Level 2 – Young Technologist (7th–8th Standard)

Class 1: Course Introduction

Welcome to Young Technologist

SOFT FOUNDATION

Learning Objectives

By the end of this lesson, students will be able to:

- Understand what the Young Technologist course is.
- Know the topics covered during the course.
- Understand the importance of computers and technology.
- Learn basic classroom rules for computer lab sessions.
- Identify different technologies like AI, Python, Machine Learning, and Cybersecurity.
- Build excitement and confidence for learning programming.

What is Technology?

Technology means **using knowledge, machines, computers, and software to make our lives easier and solve problems.**

Examples

- 📱 Smartphone
- 💻 Laptop
- 🤖 Robot

3DWEBSOFT FOUNDATION

- 🚙 Smart Car
- 🏠 Smart Home
- 🎮 Video Games
- 🛒 Online Shopping
- 🏦 Online Banking

Real-Life Example

When you search something on Google or ask ChatGPT a question, technology helps you get the answer within seconds.

Who is a Young Technologist?

A **Young Technologist** is a student who learns how computers work and uses technology to create useful projects.

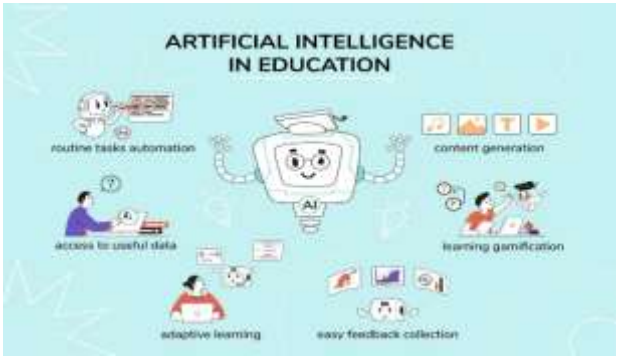

A Young Technologist can:

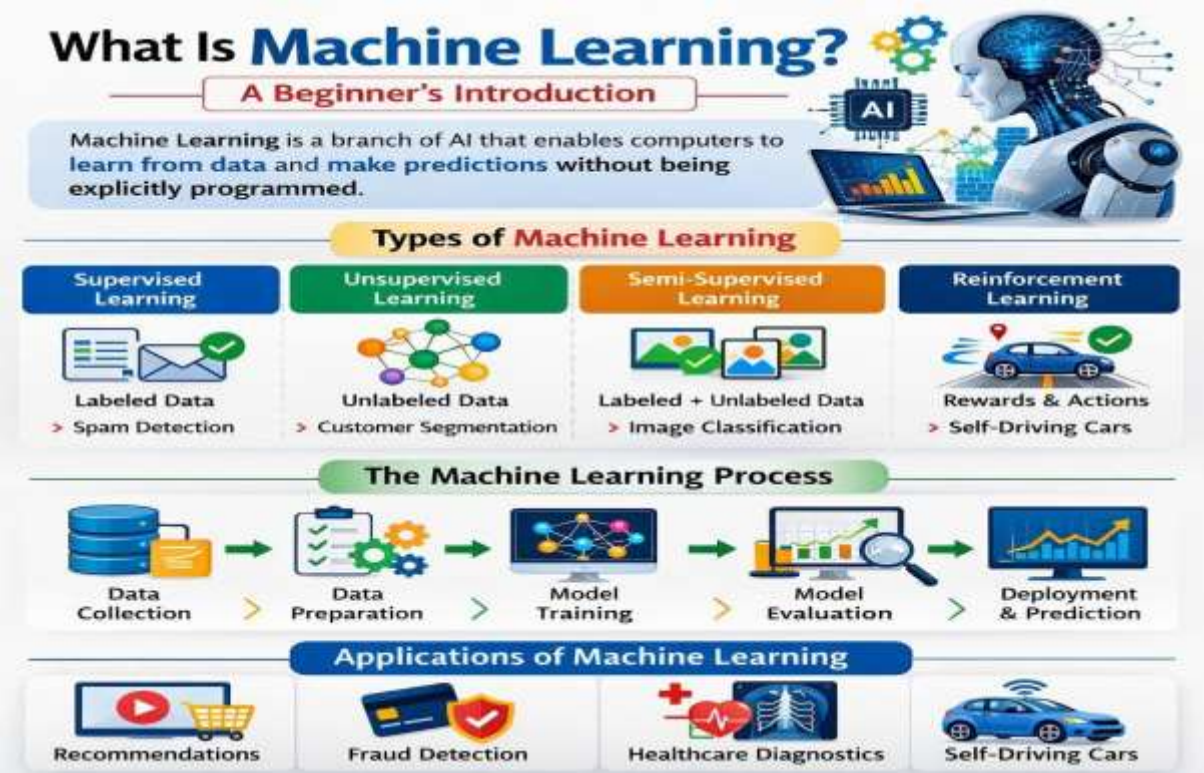

- Think logically
- Solve problems
- Write computer programs
- Use AI tools
- Stay safe online
- Build creative projects

What Will We Learn?

3DWEBSOFT FOUNDATION

During this course, students will learn:

1. Computer Skills

- Computer Basics
- Internet
- Digital Safety
- File Management

2. Python Programming

Students will learn:

- Variables
- Input & Output
- Conditions
- Loops
- Functions
- Lists
- Dictionaries

Students will create small Python programs.

3. Artificial Intelligence (AI)

Students will learn:

- What AI is
- AI around us
- Smart Assistants
- AI Games
- AI in Education

4. ChatGPT

Students will learn:

- Asking good questions
- Homework help
- Story writing
- Coding help

3DWEBSOFT FOUNDATION

- Learning with AI

5. Machine Learning

Students will understand:

- How computers learn from data
- Image Recognition
- Voice Recognition
- Recommendations
- Smart Predictions

6. Cybersecurity

Students will learn:

- Strong Passwords
- Safe Internet
- Online Privacy
- Phishing
- Viruses
- Digital Safety

7. AI Projects

Students will build projects like:

- Calculator
- Quiz Game
- Story Generator
- Password Checker

3DWEBSOFT FOUNDATION

- AI Mini Projects

Why Should We Learn Technology?

Technology is everywhere.

Examples:

Place	Technology Used
School	Smart Boards
Hospital	Medical Machines
Bank	Online Banking
Airport	Computer Systems
Home	Smart TV
Shopping	Online Stores
Police	Security Cameras
Space	Satellites

Why Learn Python?

Python is one of the easiest programming languages.

Benefits:

- Easy to understand
- Used by Google
- Used by NASA
- Used for AI
- Used in Robotics
- Used in Games

3DWEBSOFT FOUNDATION

- Used in Websites

What is Artificial Intelligence?

Artificial Intelligence (AI) means making computers smart enough to perform tasks that usually require human intelligence.

Examples:

- ChatGPT
- Google Assistant
- Alexa
- Siri
- Self-driving cars
- Face Unlock

What is Cybersecurity?

Cybersecurity means protecting computers, mobile phones, and online accounts from hackers, viruses, and scams.

Examples:

- Strong passwords
- Antivirus software
- Safe browsing
- Avoiding fake links

3DWEBSOFT FOUNDATION

Course Rules

✓ Come to class on time.

✓ Bring your notebook.

✓ Listen carefully.

✓ Ask questions.

✓ Respect others.

✓ Do practical activities.

✓ Never misuse computers.

✓ Use the Internet safely.

Important Terms

Word	Meaning
Technology	Using science to solve problems
Computer	Electronic machine
Programming	Giving instructions to a computer
Python	Programming language
AI	Artificial Intelligence
Machine Learning	Computers learning from data
Cybersecurity	Protecting digital devices
ChatGPT	AI assistant

3DWEBSOFT FOUNDATION

Practical Activities

Practical Activity 1

Activity: Technology Around Me

Write five technologies you use every day.

Example:

1. Mobile Phone
2. Television
3. Laptop
4. ATM
5. Smart Watch

Practical Activity 2

Identify Computer Parts

If a computer is available, identify:

- Monitor
- Keyboard
- Mouse
- CPU/System Unit
- Speakers
- Webcam

Practical Activity 3

AI Discussion

Answer these questions:

1. Have you ever used ChatGPT?
2. Have you used Google Assistant?
3. Have you seen a robot?
4. Which technology do you like the most?
5. Why do you want to learn Python?

3DWEBSOFT FOUNDATION

Students can discuss their answers in pairs or groups.

Technology Quiz

1. Which device is used for typing?
    - A) Mouse
    - **B) Keyboard** ✅
    - C) Speaker
2. Which language will we learn?
    - A) Java
    - **B) Python** ✅
    - C) HTML
3. What does AI stand for?
    - **A) Artificial Intelligence** ✅
    - B) Artificial Internet
    - C) Automatic Information
4. Which tool can answer questions using AI?
    - **A) ChatGPT** ✅
    - B) Paint
    - C) Calculator
5. Cybersecurity helps protect:
    - A) Books
    - **B) Computers and online accounts** ✅
    - C) Chairs

3DWEBSOFT FOUNDATION

Home Assignment

1. Write **10 examples of technology** used in your home or school.
2. Draw and label a **computer system** (Monitor, CPU, Keyboard, Mouse).
3. Write **five reasons** why learning technology is important.
4. Ask a family member where they use technology in their daily work.

Class Summary

Today we learned:

- What technology is.
- Who a Young Technologist is.
- What topics we will study during the course.
- The basics of Python, AI, Machine Learning, ChatGPT, and Cybersecurity.
- Classroom rules and safety.
- Simple practical activities and a fun quiz.

Learning Outcomes

After completing this lesson, students will be able to:

- Explain the meaning of technology.
- Describe the Young Technologist course.
- Identify the major topics they will learn.
- Recognize common technologies used in daily life.
- Understand the importance of safe and responsible use of computers and the internet.
- Participate confidently in future Python and AI lessons.
