3D WEBSOFT INC. FOUNDATION

FUTURE TECH SCHOOL PROGRAM

Faculty Name :

Course Duration : 5 Months

Classes : Offline & Online

Daily Teaching : 2 Hours

Total Classes : 100

Level 2 – Young Technologist (7th–8th Standard)

Class 10: Module Activity & Quiz (Module 1 Assessment)

SOFT FOUNDATION

Learning Objectives

By the end of this lesson, students will be able to:

- Revise all topics learned in **Module 1**.
- Demonstrate their understanding through practical activities.
- Solve quizzes and puzzles related to computers.
- Work in teams to complete computer-based tasks.
- Build confidence in using computers safely and effectively.

Module 1 Topics Covered

Students have learned the following lessons:

Class	Topic
1	Course Introduction
2	Computer Basics
3	Hardware & Software
4	Input & Output Devices
5	Operating System Basics
6	Files & Folders
7	Internet Basics
8	Google Search Skills
9	Digital Citizenship
10	Module Activity & Quiz

Quick Revision Notes

3DWEBSOFT FOUNDATION

1. Computer Basics

A computer is an electronic device that:

- Accepts data (Input)
- Processes data
- Stores data
- Produces information (Output)

IPO Cycle

Input → Processing → Output

2. Hardware

Hardware is the physical part of the computer.

Examples:

- Keyboard
- Mouse
- Monitor
- CPU
- Printer
- Speakers

3. Software

Software is a set of programs that tells the computer what to do.

Examples:

- Windows
- Paint

3DWEBSOFT FOUNDATION

- Calculator
- Python
- Google Chrome

4. Input Devices

Examples:

- Keyboard
- Mouse
- Scanner
- Microphone
- Webcam

5. Output Devices

Examples:

- Monitor
- Printer
- Speakers
- Headphones
- Projector

6. Operating System

An Operating System manages the computer and helps all hardware and software work together.

Examples:

3DWEBSOFT FOUNDATION

- Windows
- Linux
- Android
- macOS
- iOS

7. Files & Folders

Files store information.

Folders organize files.

Examples:

- Homework.docx
- Photo.jpg
- Project.pptx

8. Internet Basics

The Internet connects computers around the world.

Uses:

- Learning
- Communication
- Entertainment
- Research

9. Google Search Skills

Good search tips:

3DWEBSOFT FOUNDATION

- Use keywords
- Check spelling
- Use trusted websites
- Compare information from more than one source

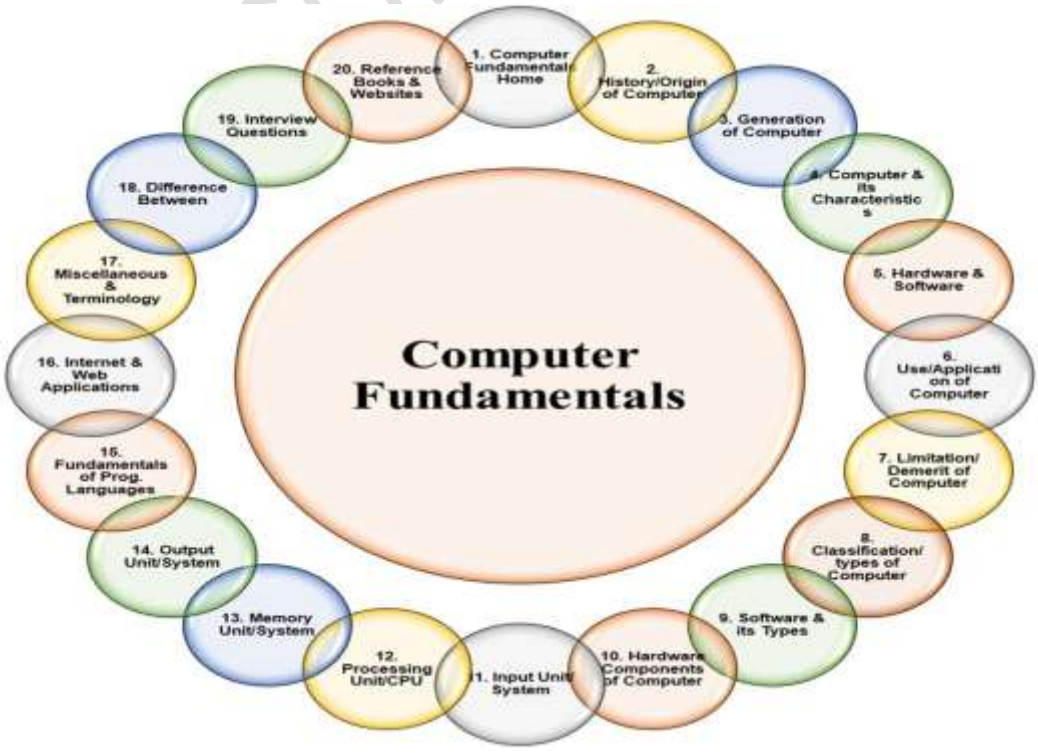

10. Digital Citizenship

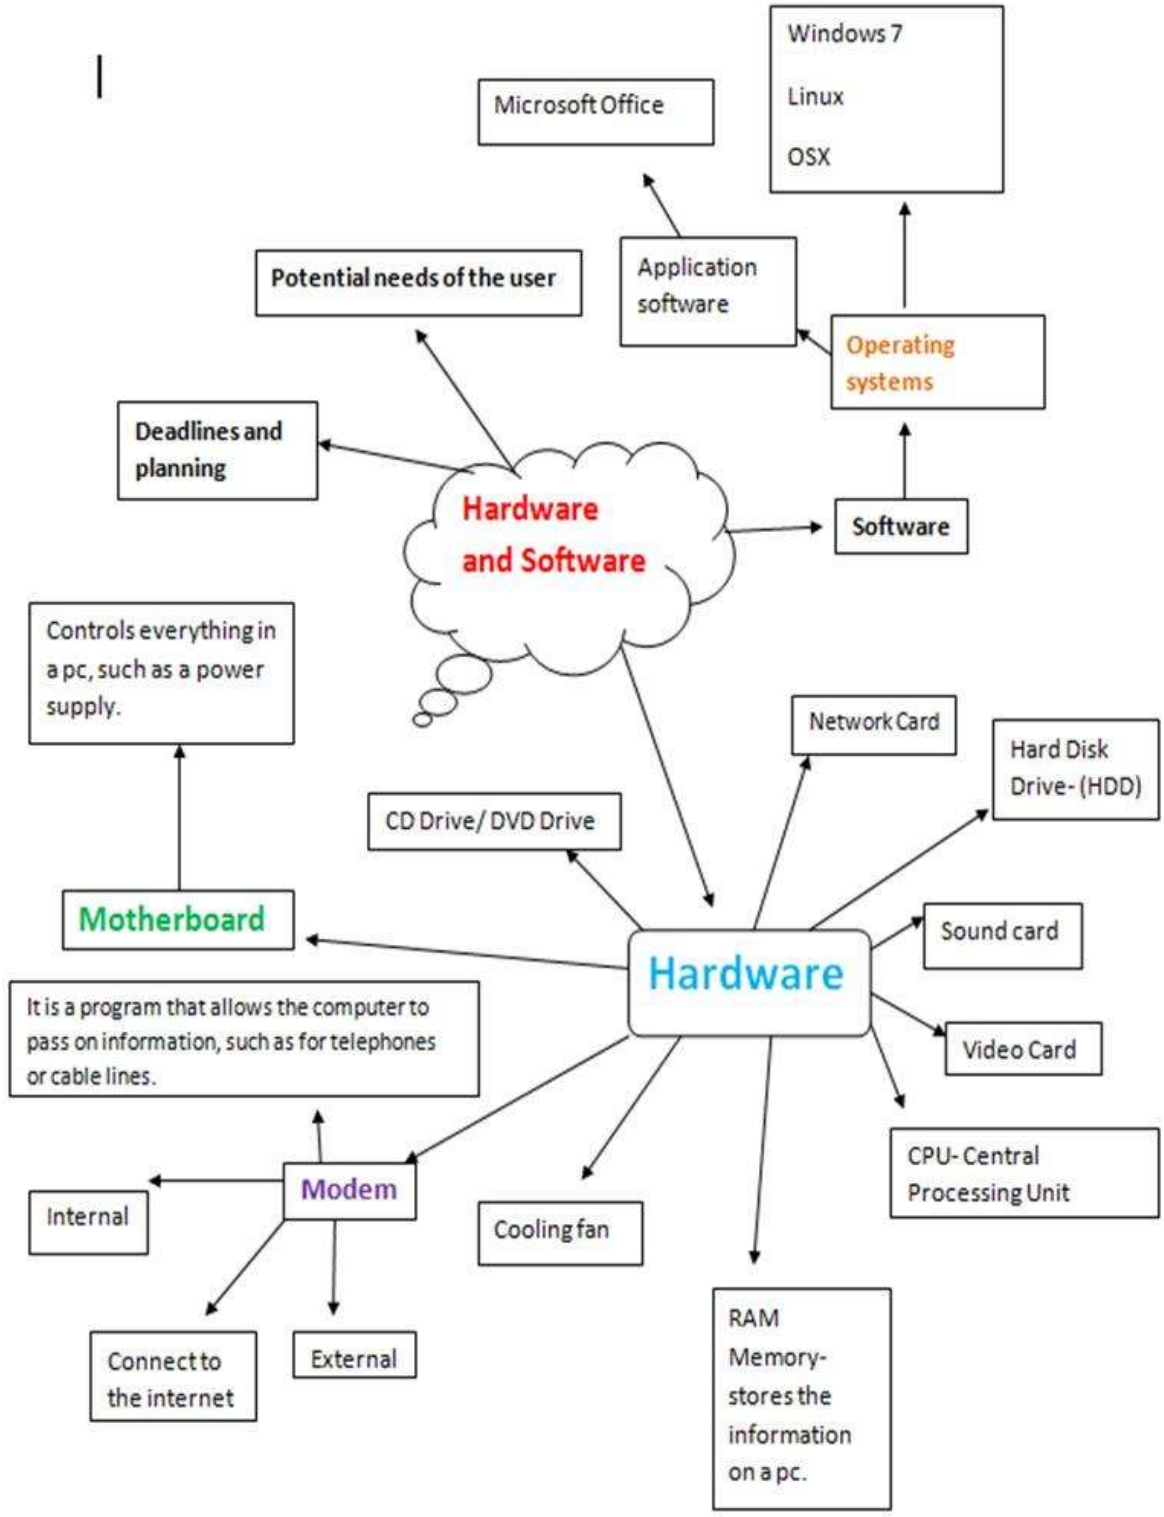

Good Digital Citizens:

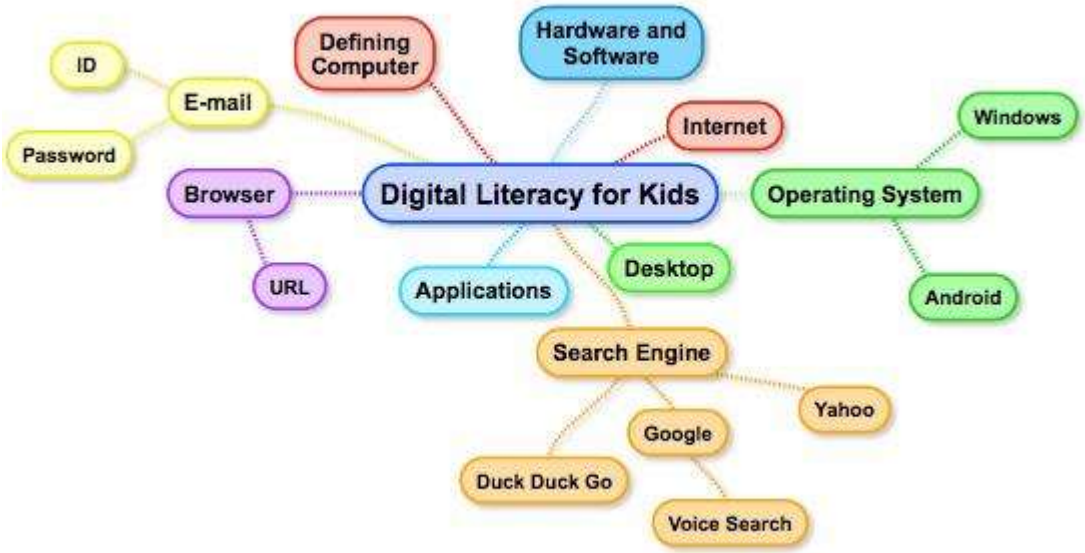

- Respect others
- Protect passwords
- Stay safe online
- Report cyberbullying
- Think before posting

Mind Map – Computer Fundamentals

Windows 7
Linux
OSX
Microsoft Office
Application software
Potential needs of the user
Operating systems
Deadlines and planning
Hardware and Software
Software
Controls everything in a pc, such as a power supply.
Network Card
Hard Disk Drive- (HDD)
CD Drive/ DVD Drive
Motherboard
Sound card
Hardware
It is a program that allows the computer to pass on information, such as for telephones or cable lines.
Video Card
CPU- Central Processing Unit
Modem
Internal
Cooling fan
RAM Memory- stores the information on a pc.
Connect to the internet
External

Classroom Activity 1 – Computer Treasure Hunt

Objective

Identify computer parts in the computer lab.

Instructions

Find the following:

- ✅ Keyboard
- ✅ Mouse
- ✅ CPU
- ✅ Monitor
- ✅ Printer
- ✅ Speakers
- ✅ Webcam

Write one use of each device.

3DWEBSOFT FOUND

Classroom Activity 2 – Hardware or Software?

Write **H** for Hardware and **S** for Software.

Item	**Answer**
Keyboard	H
Windows	S
Mouse	H
Python	S
Printer	H
Google Chrome	S
Monitor	H
Paint	S
Scanner	H
Calculator	S

Classroom Activity 3 – Input or Output?

Device	**Type**
Keyboard	Input
Mouse	Input
Monitor	Output
Printer	Output
Microphone	Input

3DWEBSOFT FOUNDATION

Device	Type
Speakers	Output
Scanner	Input
Projector	Output

Classroom Activity 4 – Match the Following

Column A	Column B
Keyboard	Typing
Mouse	Clicking
Printer	Printing
Monitor	Display
Windows	Operating System
Folder	Stores files
Google	Search Engine
Internet	Worldwide Network

Classroom Activity 5 – True or False

1. Hardware can be touched. ✅ True
2. Windows is hardware. ❌ False
3. A printer is an output device. ✅ True
4. Google is a search engine. ✅ True
5. Passwords should be shared with friends. ❌ False

3DWEBSOFT FOUNDATION

6. Files are stored inside folders. ✅ True
7. The Internet connects computers worldwide. ✅ True
8. A monitor is an input device. ❌ False
9. Cyberbullying is acceptable. ❌ False
10. Safe websites are important. ✅ True

Practical Activities

Practical Activity 1 – Create a Folder

Objective

Practice organizing files.

Instructions

1. Create a folder named:

My Computer Practice

2. Create five subfolders:

- Hardware
- Software
- Internet
- Python
- Projects

Practical Activity 2 – Create a Text File

3DWEBSOFT FOUNDATION

Open **Notepad** and type:

My Name:

My School:

I completed Module 1.

I learned about Computers, Internet and Digital Citizenship.

Save the file as:

Module1.txt

inside the **Projects** folder.

Practical Activity 3 – Google Search Challenge

Search for:

- Solar System
- Artificial Intelligence
- Python Programming
- Computer Hardware

Write one interesting fact about each topic.

Practical Activity 4 – Safe Internet Checklist

Tick the correct answers.

3DWEBSOFT FOUNDATION

Safety Rule	✓
Keep passwords secret	✓
Visit trusted websites	✓
Share personal information	✗
Download unknown files	✗
Ask adults for help	✓

Group Activity

Each group prepares a **2-minute presentation** on one topic.

Topics:

- Hardware
- Software
- Operating System
- Internet
- Google Search
- Digital Citizenship

Students explain:

- Definition
- Examples
- Importance

Fun Computer Crossword

3DWEBSOFT FOUNDATION

Across

1. Used for typing. **Keyboard**
2. Shows information. **Monitor**
3. Used to print documents. **Printer**

Down

1. Connects computers worldwide. **Internet**
2. Stores files. **Folder**
3. System software. **Windows**

Computer Word Search

Find these words:

KEYBOARD

MOUSE

MONITOR

WINDOWS

PYTHON

INTERNET

GOOGLE

FOLDER

PRINTER

SOFTWARE

HARDWARE

PASSWORD

3DWEBSOFT FOUNDATION

Module Assessment Quiz (30 Marks)

Part A – Multiple Choice (10 Marks)

1. Which device is used to type?

A. Monitor

B. Keyboard ✅

C. Printer

D. Speaker

2. Which software starts the computer?

A. Paint

B. Windows ✅

C. Calculator

D. Python

3. Which is an input device?

A. Printer

B. Keyboard ✅

C. Monitor

D. Speaker

4. Which stores deleted files?

A. Desktop

SDWEBSOFT FOUNDATION

B. Folder

C. Recycle Bin ✅

D. Downloads

5. Which helps us search the Internet?

A. Calculator

B. Search Engine ✅

C. Paint

D. Folder

6. Which is hardware?

A. Chrome

B. Mouse ✅

C. Paint

D. Windows

7. Which connects computers worldwide?

A. Folder

B. Internet ✅

C. Mouse

D. Monitor

8. Which software helps us draw?

A. Paint ✅

3DWEBSOFT FOUNDATION

B. Word

C. Chrome

D. Windows

9. Good digital citizens should:

A. Share passwords

B. Respect others ✅

C. Download unknown files

D. Bully others

10. Which is an output device?

A. Keyboard

B. Mouse

C. Monitor ✅

D. Scanner

Part B – Fill in the Blanks (10 Marks)

1. A computer is an _____ device. **(Electronic)**
2. Hardware can be _____. **(Touched)**
3. Windows is an _____ System. **(Operating)**
4. Google is a _____ Engine. **(Search)**
5. Files are stored inside _____. **(Folders)**
6. A monitor is an _____ device. **(Output)**
7. A keyboard is an _____ device. **(Input)**

3DWEBSOFT FOUNDATION

8. The Internet connects computers around the _____. **(World)**
9. Keep your _____ secret. **(Password)**
10. Python is a _____ language. **(Programming)**

Part C – Short Answer Questions (10 Marks)

1. What is a computer?
2. What is hardware?
3. Name any four input devices.
4. What is an Operating System?
5. What is a folder?
6. What is the Internet?
7. What is a search engine?
8. Write three Internet safety rules.
9. What is Digital Citizenship?
10. Why is a strong password important?

Home Assignment

1. Revise all Module 1 topics.
2. Draw and label a computer with its main parts.
3. Create a chart showing **Hardware vs Software**.
4. Write five safe Internet rules.
5. Practice creating folders and saving files on a computer.

3DWEBSOFT FOUNDATION

Module 1 Summary

Students successfully learned:

- ✅ Computer Basics
- ✅ Hardware & Software
- ✅ Input & Output Devices
- ✅ Operating System Basics
- ✅ Files & Folders
- ✅ Internet Basics
- ✅ Google Search Skills
- ✅ Digital Citizenship
- ✅ Safe and Responsible Computer Usage

Learning Outcomes

After completing **Module 1**, students will be able to:

- Understand basic computer concepts.
- Identify hardware and software.
- Use input and output devices correctly.
- Operate a computer using Windows.
- Organize files and folders efficiently.
- Browse and search the Internet safely.
- Use Google Search effectively for learning.
- Demonstrate responsible digital citizenship and online safety.

3DWEBSOFT FOUNDATION

- Apply their knowledge through quizzes, projects, and practical computer activities.
- Build a strong foundation for learning **Python Programming, AI Tools, Cybersecurity, and Machine Learning** in the upcoming modules.

3DWEBSOFT FOUNDATION
